

LEGAL AND CASEWORK

Every Case. Every Document. Always at Your Fingertips.

Eckho Desktop gives legal professionals instant command over their case files — without searching, scrolling, or guessing.

Ask one question and surface the right case fact, document, timeline, note, or update across your legal folders.

FROM HOURS TO ONE QUESTION

A legal case can have hundreds of documents across years. Finding one fact used to mean hours. With Eckho Desktop, it becomes one question.

Before

Searching folders, opening files, checking dates, and reading documents manually.

With Eckho Desktop

Ask once, get the answer, see the file reference, and update the record.

THE FOUR LEGAL WORK ACTIONS

Command your casework from one place.

Find.

Surface case facts, documents, clauses, names, dates, and references across legal folders.

Explain.

Summarise a case folder, document set, agreement, correspondence trail, or timeline in plain language.

Update.

Add notes, hearing updates, call summaries, or action logs directly into the correct case file.

Change.

Edit a facts summary, case note, tracker, or record based on your instruction.

REAL LEGAL DEMO SCENARIOS

Ask naturally. Work directly with the case.

FIND

EXAMPLE PROMPT

“Find all references to the Nkosi contract signed before March 2025”

WHAT ECKHO DOES

“Searches all case folders and returns exact file references and context.”

EXPLAIN

EXAMPLE PROMPT

“Summarise the timeline of events in the CAS580 case folder”

WHAT ECKHO DOES

“Reads the documents in that folder and returns a clear plain-English timeline.”

UPDATE

EXAMPLE PROMPT

“Add today’s note: Opposing counsel requested extension. Hearing rescheduled to 14 Aug.”

WHAT ECKHO DOES

“Writes the note to the master activity log file in the case folder.”

CHANGE

EXAMPLE PROMPT

“In the facts summary doc, update the accident date to 30 May 2026”

WHAT ECKHO DOES

“Opens the file and updates that specific line.”

WHO USES IT

Attorneys

Paralegals

Legal PAs

Compliance Officers

Case administrators

Built for teams who live inside case folders, contracts, correspondence, evidence files, and activity logs.

Why legal teams care

Find case facts faster

Summarise large case folders quickly

Update controlled documents without hunting through folders

Reduce time spent opening documents manually

Keep case activity logs up to date

Keep sensitive legal files local and private

Privacy and control

Your files stay on your machine

No upload to the cloud

Works with your existing case folders

No folder migration needed

You control the files, folders, and access
